Subject: Yucca Mountain

Part of Records Package / Supplement / Correction

Ms. Carol Hanlon
S&ER Products Manager
U.S. Department of Energy

In light of recent events, storage of radioactive waste at Yucca Mountain seems to be a more secure place than at each of the nuclear sites around the country. One place that could be guarded from unauthorized entry would be much more secure than every nuclear site guarding their own. I fully support Yucca Mountain as this site. If you have any questions, or would like more information, please do not hesitate to ask.

John P. Lindsey
Exelon Nuclear
Dresden Station
